## WORK EXPERIENCE

### SolveForge Private Limited

PHP Web Developer Intern

June 2023 - August 2023

- Created and implemented a wide range of web-based applications using PHP, HTML, CSS and JavaScript.
- Optimized existing PHP applications to improve performance and scalability.
- Collaborated with other developers and designers to ensure the timely delivery of projects

## EDUCATION

### IMS Engineering College

Bachelor of Technology (Computer Science)

2020 - 2024

### Marigold Public School

12th

April 2018 - March 2020

### St. Mary's Convent School

10th

April 2017 - March 2018

## PROJECT

### PG Life

July 2023 - September 2023

- A Paying Guest Finder website built with HTML, CSS, PHP, JavaScript, SQL, Bootstrap, and React offers users a responsive, dynamic platform to search for PG accommodations.
- It features real-time filters, secure authentication, payment, and messaging, with mobile-friendly design and seamless interactions for property listings and user management.
- <https://github.com/akshat0502/PgLife>

### E-commerce Website

July 2023 - August 2023

- A Website to Buy Inverters and Batteries offers a streamlined platform for purchasing power backup solutions.
- Users can browse a wide range of inverters and batteries, filter by capacity, brand, and price, and view detailed product descriptions, reviews, and specifications.
- With secure payment gateways, product comparisons, and easy checkout, the platform ensures a seamless shopping experience.
