SUMMARY

Results-driven Java and Full-Stack Developer with 0.5 years of experience building scalable, high-performance web applications using Java, Spring Boot, React.js, RESTful APIs, and MySQL. Skilled in full-stack development, API integration, and responsive UI design. Strong foundation in OOP, Data Structures, Algorithms, and Problem-Solving. Passionate about creating innovative solutions and optimizing user experience.

SKILLS

- **Languages:** Java, JavaScript, HTML5, CSS3, SQL
- **Frameworks & Libraries:** Spring Boot, Spring, React.js, Bootstrap, Tailwind CSS
- **Databases:** MySQL, SQL
- **Tools & Platforms:** Git, GitHub, VS Code, Eclipse
- **Concepts:** RESTful APIs, API Integration, OOP, DSA, Problem-Solving, Responsive Web Design, MVC Architecture
- **Familiar With:** AWS Basics, Microservices

WORK EXPERIENCE

Solveforge Private Limited   *Jul 2023 - Aug 2023*
Web Developer Intern
- Developed and maintained web applications using PHP, JavaScript, HTML, CSS, and MySQL.
- Built and integrated RESTful APIs to enable seamless data exchange between components.
- Improved application performance by 20% through code optimization and debugging.
- Collaborated with UI/UX teams to enhance mobile responsiveness and user experience.
- Utilized Git and GitHub for version control and deployment management.

PROJECTS

Prescripto Website   🔗 Demo   *Jul 2024 - Aug 2024*
Technologies: React.js
- Built a responsive doctor appointment booking platform, reducing appointment scheduling time by **40%**
- Integrated REST APIs for search, scheduling, and booking features.
- Enhanced usability and engagement by applying modern UI/UX principles.

Ecommerce with ReactJS   🔗 Demo   *Sep 2024 - Nov 2024*
Technologies: React.js
- Developed a dynamic food ordering platform with React.js and state management.
- Designed intuitive UI with menu filtering, cart management, and real-time order summaries.
- Optimized navigation and checkout process, improving user retention by 30%.

PGLife   *Jul 2023 - Sep 2023*
Technologies: HTML, CSS, PHP, JavaScript, SQL, Bootstrap, React.js
- Built a Paying Guest Finder platform using HTML, CSS, PHP, JavaScript, SQL, Bootstrap, and React.js.
- Implemented secure authentication, payment gateway integration, and messaging features.
- Designed a mobile-friendly interface to improve accessibility and user retention
